# ***INTRODUCTION***

Space Cats is a cat based utility token. It is centred for the fur-midable ailurophiles. We shall acquire popular cat NFTs by DAOs through community participation. Also, we shall lay out and participate in fun games and activities very shortly. Obviously, this means we will grow! We look forward for you to join us and be a part of this cheerful community. We strongly believe that the cats have and shall hit the space next! So board the spaceship before we take off; all the way!

# *TOKENOMICS*

Total SPACCATS Supply

**10,000,000,000,000,000**

SPACCATS Burnt

**5,333,333,333,333,330**

Current Circulating Supply

**4,666,666,666,666,670**

There are a total of 10 quadrillion space cats token minted and this can never be changed. 53% of the total supply has been burned and all the remaining tokens have been sent to the uniswap exchange! The contract has been cleverly handicapped from the start where nobody including the contract owner can ever amend the tokenomics. It is therefore equivalent to renouncing the ownership. Please feel free to go through the contract.

We believe in our community completely. Therefore, we have incorporated open market economics which means that nobody can meddle with the token price and is completely left open to the market forces for an undisputed and an undisrupted free purring market economic activities.

*Note: 'Activities and games' shall incentivize hodlers by adding to the liquidity pool.*

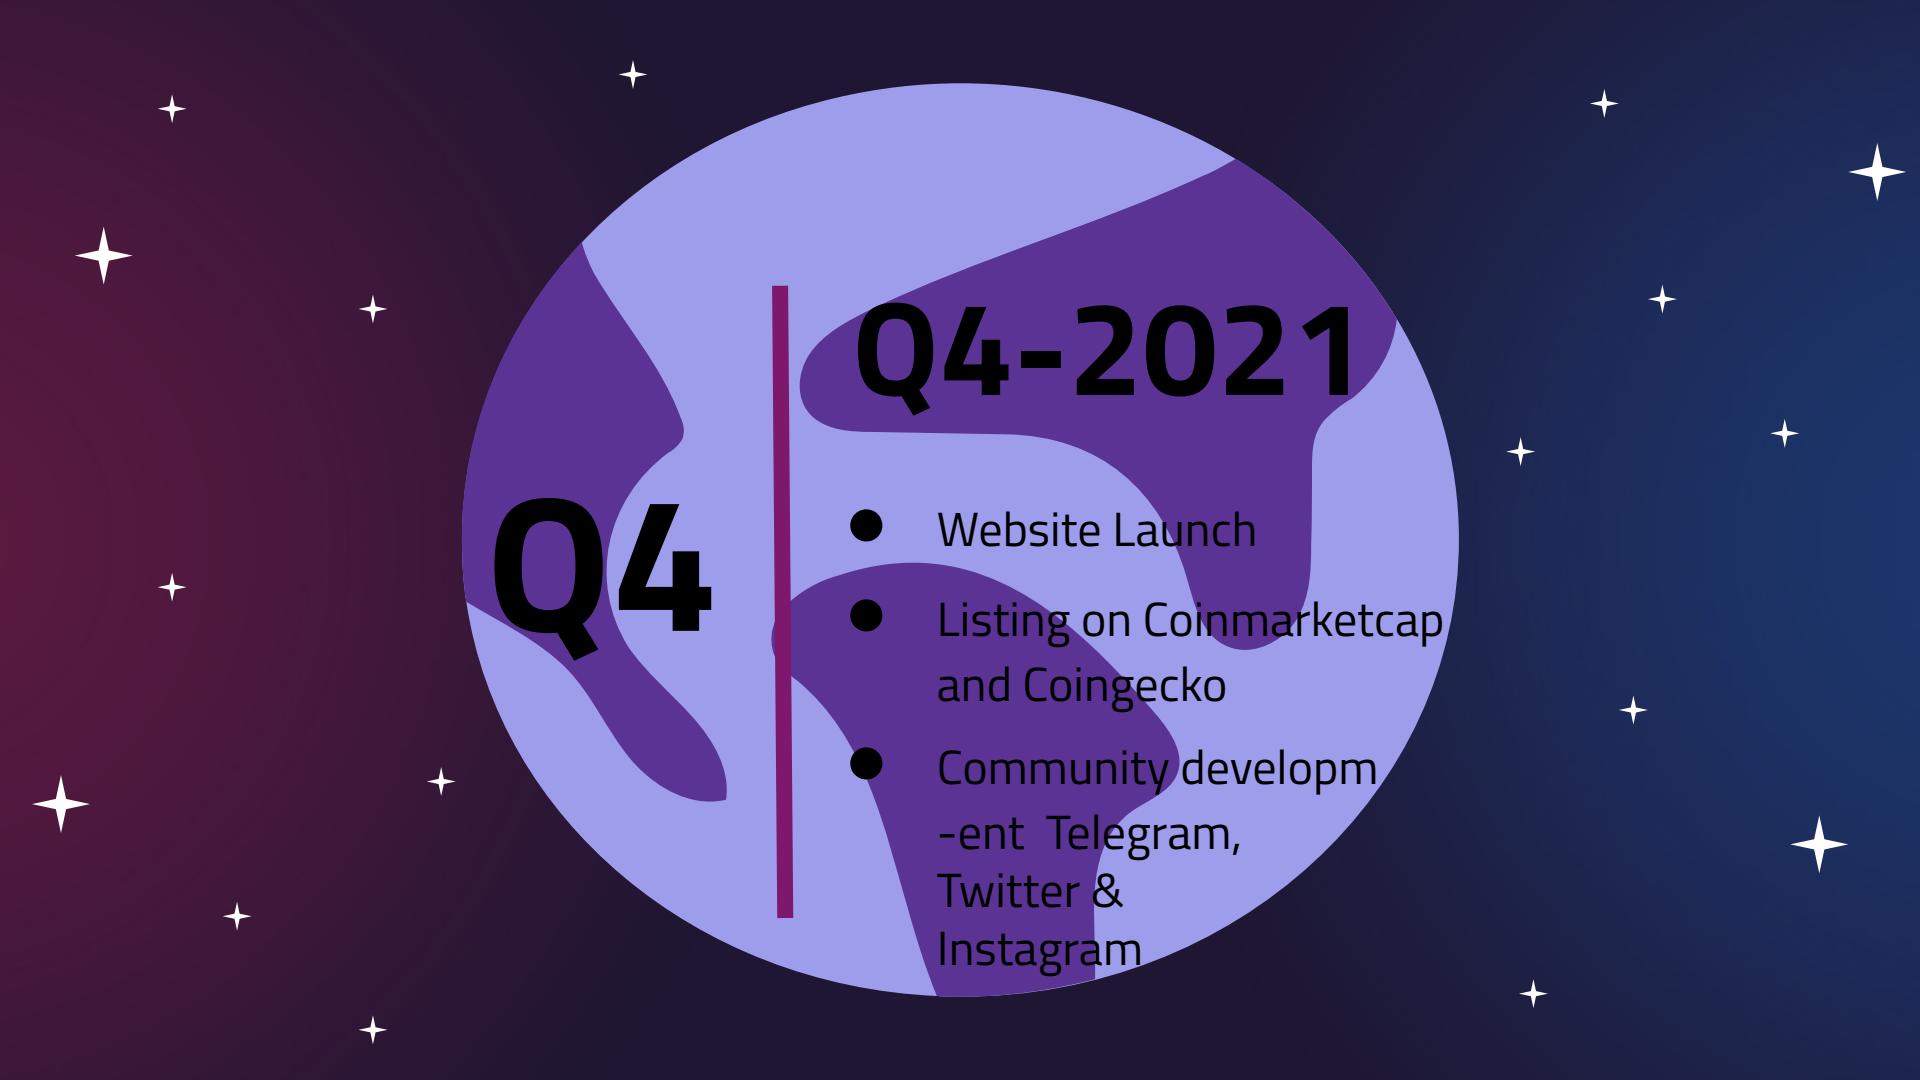

# ACTIVITIES

We look forward to introduce lottery platforms initially which can be participated by staking spaccats. We would also like to add the WETH liquidity pool in the platform enabling a wider community to participate. Further down the lane, there are going to be exciting multiplayer games like Ludo, Chess, etc which are still under the planning phase. They shall be developed based upon the DAO responses from the initial phases through community voting. Therefore, as you can understand, 'hodlers' get greatly benefited from these rewards. "Hodl the door". Stay Furred!

# ROADMAP

# **Q4**

## **Q4-2021**

- Website Launch
- Listing on Coinmarketcap and Coingecko
- Community development -ent Telegram, Twitter & Instagram

# Q1

## 2022-Q1

- Exchange Listings
- NFT's based on DAO's
- Branded Merchandise
- Adding Lottery platforms

# Q2

# 2022-Q2

- Further Exchange Listings and DAO's
- Tie ups with Big Organisations
- Adding games & Activities rewarding winners.
